ITEM #402 2FT.

\$4.95 ea. Any 2 for \$8.95

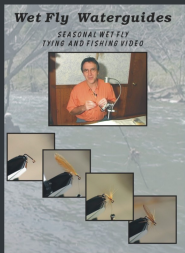

## Instructional DVDs

We will guide you through the techniques you will need to improve your wet fly fishing abilities. This latest DVD is a great teaching tool and coupled with our first disc on tying wet flies it will offer you the one two punch needed to sharpen your fish taking skills.

Using multiple camera angles and close ups, we will guide you step by step on how to tie six of our most popular wet flies, making it easy enough to duplicate these tried and true patterns.

In this newest DVD we have combined the best of both worlds, wet fly tying and fishing. This DVD is packed with all the information you need to tie six new flies. Early, mid or late season, these new flies will help you take fish no matter what time of the year. This is a great addition to your collection.

"Dave and George,

I bought your Wet Fly video at the Penns Woods West TU show. This is a great instructional video. I watched it once and tied up a half dozen wet hares ears and all of them came out great. It was a breeze. I'm self taught and I appreciate the guidance on making the hackle lay back properly. Can't wait to give them a try. GREAT JOB."
