ITEM #503

Intermediate Sinking Fly Line

The workhorse of wet fly fishing has to be the intermediate sinking fly line. This fly line is designed to get your flies to the level of the fish and keep them in the strike zone. Early, mid, and late season this line will take care of the bulk of your fishing needs.

Fly Rods

Wet Fly Waterguides are proud to announce their endorsement of Mystic Rods. These rods not only look great but, fish even better. Over the past 40 years we have used a pile of different rods, and as far as we're concerned Mystic Rods can go head to head against any rod companies out there. What ever type of fly fishing your in to Mystic has the rod to fit your needs. At Wet Fly Waterguides if we don't use it we don't sell it.

All Mystic rods are built with the finest carbon graphite composite available on the market today. Bringing quality fly fishing products and experiences into your life is not enough for Mystic. Our second commitment is to make them available at prices that everyone can afford. You will not find another fly rod on the market today that offer performance and affordability like the M series fly rods by Mystic.

- High modulus charcoal grey graphite composite blanks
- Top grade Portuguese cork handles
- Machine polished aluminum reel seat with inline light maple burl wood insert
- Fine quality chrome hardened stripper and snake guides
- Hand wrapped in black with silver inlay
- All rods come with a lightweight carbon rod tube and matching engraved rod sock.
